

This week in Early Years...

Computing: we will return to exploring and programming the Bee-Bots this week. The children will be introduced to vocabulary such as algorithm, sequence, direction, debug, arrow.

Balance ability sessions:

Next half term we have a sports coach called Katie joining us to carry out balance ability sessions with small groups of children; supported by our parent volunteer Andrew. Children will be provided with a safety helmet, and will need to arrive wearing their trainers for the day. If your child can already ride a pedal bike, there will still be opportunities for development and growth – and lots of fun!

Wombat sessions are MONDAY 1st, 8th, 22nd, 29th June, 6th July.

Raccoon sessions are FRIDAY 5th, 12th, 19th, 26th June, 3rd July.

Book of the week:

The week's overview:

<u>Circle time</u>	<u>RE</u>	<u>Understanding the world</u>
Tell the class something about the plants we have grown.	What would you like to say thank you for today?	If the butterflies have hatched, we will release them.

Please remember to provide a named sun hat everyday for your child.

Congratulations!

Lennon was our Wombat reflective star of the week. We celebrated his progress with his segmenting and blending skills.

Aronas was our Raccoon reflective star of the week. We celebrated that he has produced some amazing work and made lots of positive choices.

Edward was our Wombat writer of the week for his detailed sentence writing during Drawing Club.

Eli was our Raccoon writer of the week for his longer sentence writing which included multiple tricky words.
