

# This week in Early Years...

## Maths focus of the week:

Counting: we will revisit the concept of 1:1 correspondence by making sure that we match collections of objects to our representations. We will also begin to explore larger numbers – considering the pattern of number names beyond the tricky ‘teen’ numbers.

## Book of the week:

We are so proud of the nativity that the children performed last week. Their confidence on stage was amazing to see. Thank you for joining us.

## Monday is PE day

Our PE sessions will continue right up until the end of term. Thank you for continuing to provide indoor PE kits. Please can earrings be removed at home?

We are not sending home the decodable Little Wandle reading books over the Christmas break. Your child will choose a Christmas themed book for pleasure instead. Our final day at school is Friday 19<sup>th</sup> December.

Congratulations to **Kataleja** for receiving our resilience star learner award in Friday's assembly.

Congratulations to **Ruby** for being our writer of the week! She wrote a sentence about Mary from the nativity. Her writing is proudly displayed in the school hall.

Congratulations to **Ellis** for receiving our resilience star learner award in Friday's assembly.

Congratulations to **Koa** for being our writer of the week! He created a book at home about a growing plant. His writing is proudly displayed in the school hall.
