

# Reception Weekly Newsletter

★ We have completed our first week of the full timetable and curriculum! ★

## Our Focus Story

Owl Babies has been our focus story this week. We have enjoyed exploring the story through lots of exciting enhancements in our provision, including small world, role play, craft and mark making.

## Reading Groups

The first reading groups have taken place and your child has brought home their wordless reading book. This book is for you to share together at home and helps to build their confidence, fluency and love of reading.

Please return the book on Monday.

## Number Maths

This week we have focused on subitising numbers 1, 2 and 3. Children have been recognising small quantities without counting and saying the total automatically.

## Shape, Space and Measure

In maths we have been applying positional vocabulary. We have explored words such as in, on, under, next to, between and behind through practical activities and play.

## Art

Art has returned to line mark making and we have been creating self portraits using mirrors to consider the placement of our facial features.

## Weekly Challenges

This week's challenges included name building, matching numerals and dot representations and mark making using a variety of mediums.

★ We are looking forward to next week! ★
