

This week in Early Years...

It's our last week of Balance ability sessions.

Wombats need to wear their trainers on Monday;
Raccoons need to wear their trainers on Friday. Thank you.

Book of the week: Celebration assembly.

Due to the extremely hot weather last week, we did not hold our weekly celebration assembly. This week we will celebrate on both Monday AND Friday. This will be shared with you all next week.

Thank you for your communications via Class Dojo last week about your child's attendance during the hot weather. The early years team felt it was a great success – reduced learning expectations, minimal time spent outside, lots of water play, and multiple ice lollies to help the children make it safely through the day.

The weather forecast is still warm this week – but not the extreme temperatures of last week. Please ensure your child comes prepared with their sun hat, sun cream and water bottle every day. Thank you ☺

The week's overview:

Understanding the World	Art	RE
What will be different and what will stay the same when we go to Year One?	How can we use pencil lines to plan and design a clay animal?	Every creature matters: God's world great and small.
Shape, Space and Measure	Music	PSHE
Which way should we go on the map?	Can we perform previously learnt songs?	What does it mean to have a balanced diet?

Number focus: Automatic recall. We will be reviewing previous learning including understanding that 5 can be partitioned in different ways, create representations of numbers to 5 and use spatial language to describe their arrangements, and visualise and describe doubles patterns up to '5 and 5'.
