

This week in Early Years...

Maths focus of the week:

Composition: we progress to the composition of numbers 6 and 7 this week; representing 6 as 5 and 1 more, and 7 as 5 and 2 more. We will explore the die representations of 1-6 and make these numbers on our fingers – filling one hand first.

Book of the week:

Congratulations!

Tia was our Wombat risk taking star of the week. We celebrated in assembly the risks she is taking in her sentence writing!

Ollie was our Raccoon risk taking star of the week. We celebrated in assembly that he is always putting his hand up in phonics and working hard on his blending at home.

Renley was our Wombat writer of the week; with support he segmented and wrote the label “captain hook”.

Elias was our Raccoon writer of the week; he has been writing words in his drawing club tasks with minimal support.

Monday maths: Our shape, space and measure focus this week is ‘comparing height’. We will return to the class height chart that we created last week and order everyone’s height, and consider, what will make this easier? We will also compare the height of a variety of soft toys by lining them up in height order – using the vocabulary shorter, taller, equal, height.

Art resources: We are going to explore collage this week and next in our art lessons. If you have any magazines at home that you are finished with, please can we have them to cut up? Please donate by Thursday 5th February – thank you!

Pirate dress up day: We are counting down the days to our pirate dress up day on Wednesday 11th February. Please ensure your child arrives dressed for the occasion! We are going to take part in a range of different pirate tasks such as walking the plank, food tasting at the Buccaneer’s buffet, learning sea shanties and making shark necklaces.
